40 to 49 "	.55 each
50 or more	.50 each

Three and four year old seedlings.

Under 4 ft.	\$1.00 each
4 to 6 ft.	1.50 each
Over 6 ft.	2.00 each

All of our prices for trees are F.O.B. Millerton, N.Y.

Our supply of seed nuts (Carpathian Persian Walnuts) is very limited this year both in amount of nuts and of varieties available. The trees bore a good crop of nuts but the squirrels took most of them before they were ripe. As the trees are growing on the grounds of Wassaic State School, a State Institution, there is no way in which we can combat the squirrels. See attached sheet.

GRAFTING WOOD

We can supply grafting wood of most of the leading varieties of hickory and black walnut. Price of wood is 20¢ per foot.

We can supply wood of any of our own varieties of Carpathian Persian walnuts and of Fodermaier, Marvel, Rival and Wright heartnuts. Price of this wood is 25¢ per foot. Postpaid.

SEED NUTS.

CRATH CARPATHIAN STRAIN OF PERSIAN WALNUTS

Seed nuts are again available of our Crath Carpathians. All from good varieties, including many of our best Varieties. We were not able to get nuts of all of our varieties this year because of the ravages of squirrels. They take the nuts before they are ripe. We have received good reports from the seednuts we have sent out in the past. Germination has been good.

Growing of Crath Carpathians from seed nuts is practical as one is practically sure of securing trees which will bear good nuts. Out of more than fifty seedlings we grew from seed, only one was worthless. All of the others would be worth propagating if it was not for the fact that some varieties are better than others and only the best varieties should be propagated by budding or grafting.

Price of nuts is \$.10 each or \$1.00 per dozen. Postpaid. Instructions for care of nuts and planting will be sent with each lot of nuts.
